GL064 ORANGE DIAMOND TEXTURED GLOVES (100 GLOVES PER BOX)

DESCRIPTION

• Protect your hands from potentially harmful substances using these disposable gloves from Unigloves. This pack contains 100 gloves, so you'll have plenty in stock for multiple uses. Thanks to the tough nitrile material, they're resistant to oil and chemicals, making them a practical choice for use in harsh environments. The gloves have a beaded cuff to ensure they stay securely in place on your hand. As they have an ambidextrous fit, you can use the gloves on either your left or right hand, making them a versatile choice. Features & Benefits
• Bright orange colour makes them easy to spot in hygienic areas
• Touchscreen compatibility enables use of phones and tablets while wearing gloves
• Diamond-textured for a strong grip on slippery surfaces Applications
• Medical procedures
• Petrochemical industry
• Food and beverage industry What's the advantage of using a powder-free glove? A powder-free glove hasn't been dusted with the powders typically used to separate sticky gloves. As these powders can contaminate food and pharmaceutical products, powder-free gloves are a good choice for use in applications where a strict level of hygiene is required.
