TR263 SENTINEL RAIL CHAINSAW TROUSERS

DESCRIPTION

• Utilising a mix of approved GO/RT Orange fabrics STEIN Rail Chainsaw Trousers ticks all the boxes. With an abrasion resistant rip-stop multi-stretch base material the wearer also has excellent flexibility in the areas which matter. The crotch area is fully constructed using this material and has been reinforced stitched for extra security whilst also stretching. A roomy tailored leg allows for increased air circulation. The greave area and rear calf area is constructed using another heavy duty durable polyester material. This feature offers enhanced wear over standard materials when working in dense vegetation. The pre-formed knees give even more increased comfort and movement. Both legs are fitted with the stylish 75mm X25 stretchable patterned reflective stripes conforming to the EN 20471 High Visibility standard. Integrating one of the latest European light weight technical blocking filaments ensures these trousers are also comfortable to work in all day. A large formed pocket is also fitted on the left leg along with 2 front pockets and also a rear pocket. An elasticated boot lace fastener helps even more to reduce any dirt ingress into boots. FEATURES: -Multi-Stretch material for increased movement -75mm X25 Stretchable patterned reflective stripes on both legs -Two side pockets downward facing zips -Large pocket on the left leg press stud closure -Rear Pocket zip closure -Quality YKK zipper systems -Button fastening system on waist -Button brace fittings -Pre-formed abrasion resistant knees -Durable hardwearing greave and calf areas -Elasticated boot lace fastener in the hem -Weight 1535g (Based on size M)
